

MONTEREY 264

8 people | 8 m x 2,5 m | Available with or without a captain | 🇪🇺 Private charters: 2h to 6h

Spacious, stable and designed for comfort, this model delivers a smooth and confident ride — making it one of the most versatile choices for a perfect day at sea.

It features both a **large front and aft sunbathing and seating area**, allowing you to relax right by the water while at anchor. The ice cooler is **always stocked with ice and drinks**.

The wide **swim platform** with ladder provides easy and **comfortable** access to the water. Unlike boats with large outboard engines, this design keeps the platform clean, uncluttered and far **more enjoyable** to use, while the **propeller remains safely hidden beneath**.

For those who wish to add a touch of adventure, **water sports are available with captain service.**

With Captain Includes

During the journey, the captain keeps an eye out for **dolphins**, while the experience is primarily focused on **relaxed cruising** and refreshing **swim stops** in our favourite coastal locations.

Catering can be arranged on board, and we can organise stops at selected **waterfront restaurants** — dropping you off for lunch and picking you up again right in front

A completely private experience, where you set the pace, choose the music and enjoy the sea with your own group
